INDITAL USA INTRODUCES A NEW LINE OF POWDER COATED BALUSTERS AND NEWELS

Indital USA introduces our new spectacular Powder Coat Line of high quality Italian Wrought Iron balusters and newels in seven magnificent colors. We offer over 75 balusters and newels including 15 new designs that have been produced. More selections in stunning colors have been created to satisfy even the most selective Builders and Homeowners.

We are one of the first manufacturers to provide Twist Designs, including baskets, in 1/2", 9/16" and 5/8" bar sizes. This gives your customer's options they've never had until now.

Indital provides a lavish assortment in our Scroll Series, some designs never before offered. Our styles include seven scrolls in widths over 7" and seven in widths under 6".

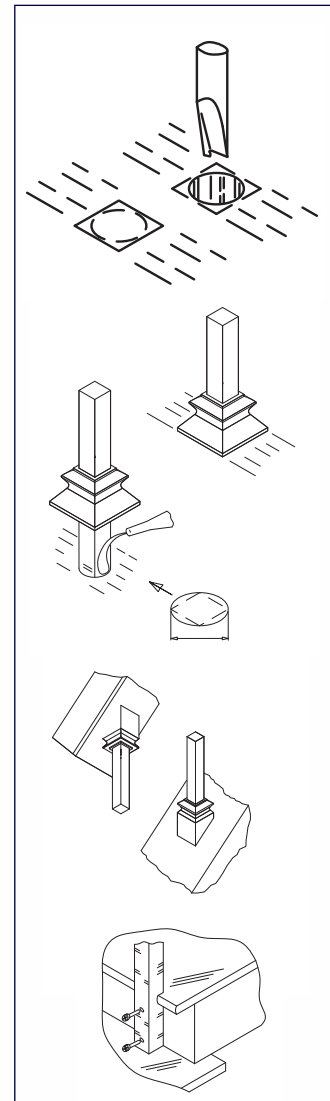

We offer several original eye-catching shapes; geometric designs, our single and double stars and the new Gonzato Designs complete the most extensive Powder Coat Line in the marketplace.

Our color selection includes two colors of black; Classic Black (Satin) and Wrought Iron Black (Textured) and five rich colors from Old World Copper, Midnight Bronze, Dark Champagne, Warm Nickel and Shadow Grey. These five elegant colors make their first introduction to the U.S. Market.

Indital USA, Ind.i.a Spa, our staff, and our manufacturing facility in Europe are working passionately to bring our customers this impressive line. With the procurement of new equipment dedicated to Powder Coat, production is underway and inventory is well stocked in the U.S. at our Houston and Henderson locations.

Indital is committed to be the leader in providing quality Powder Coat Stair Products to the U S market. Please contact Indital USA for pricing and availability.

THE MAIN FEATURE OF CONE MOTIF IS THAT IT CAN BE CONNECTED TO THE WROUGHT IRON TRADITION BASED ON THE REPRODUCTION OF THE NATURE AND OF ITS SHAPES, LIKE FLOWERS AND LEAVES.

AT THE SAME TIME, IT CAN'T BE RESTRICTED ONLY TO THAT FIELD BECAUSE THE GEOMETRICAL HARMONY OF ITS SHAPE ENABLES IT TO FIT ALSO EVERY MODERN ENVIROMNENT PERFECTLY.
